

This Folder contains the edited version of the .php files.

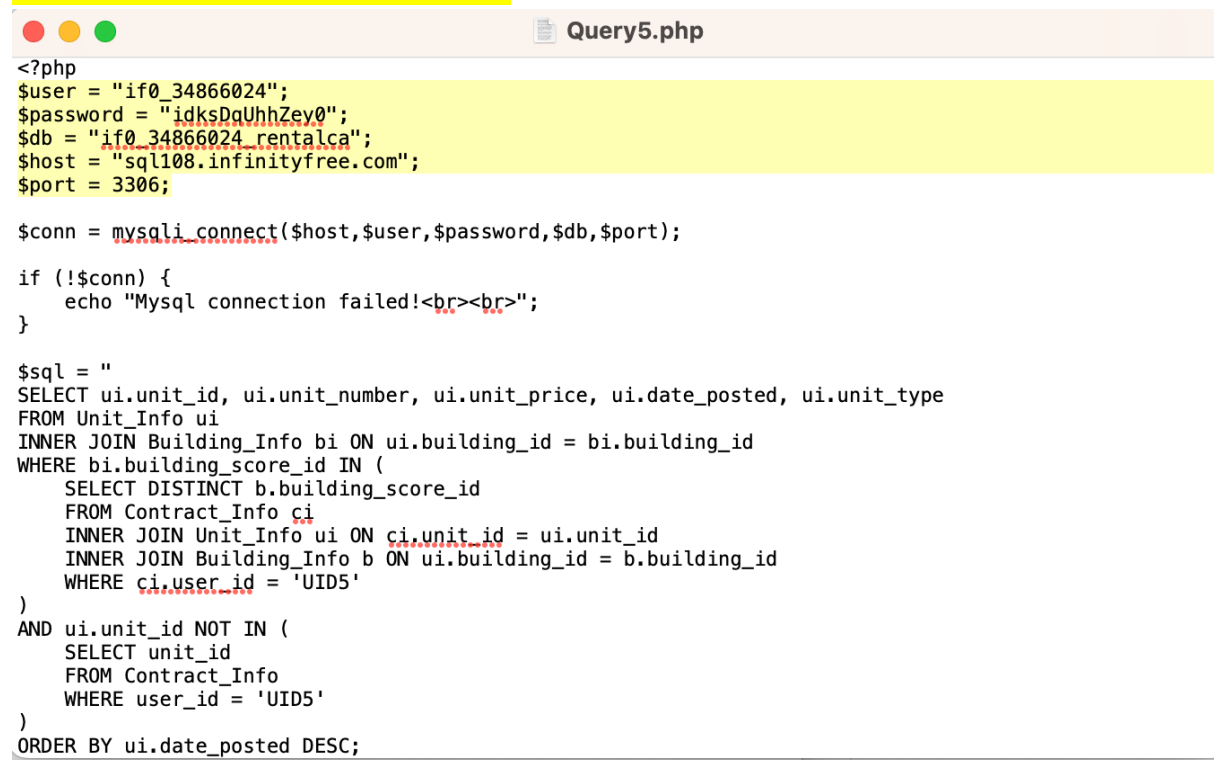

Here are some instructions on updated usernames and passwords.

When creating your .php file, please use the following:

```
$user = "if0_34866024";  
$password = "idksDqUhhZey0";  
$db = "if0_34866024_rentalca";  
$host = "sql108.infinityfree.com";  
$port = 3306;
```

as \$user, \$password,\$db, \$host, \$port

**** This is the correct version! ****

```
<?php  
$user = "if0_34866024";  
$password = "idksDqUhhZey0";  
$db = "if0_34866024_rentalca";  
$host = "sql108.infinityfree.com";  
$port = 3306;  
  
$conn = mysqli_connect($host,$user,$password,$db,$port);  
  
if (!$conn) {  
    echo "Mysql connection failed!<br><br>";  
}  
  
$sql = "  
SELECT ui.unit_id, ui.unit_number, ui.unit_price, ui.date_posted, ui.unit_type  
FROM Unit_Info ui  
INNER JOIN Building_Info bi ON ui.building_id = bi.building_id  
WHERE bi.building_score_id IN (  
    SELECT DISTINCT b.building_score_id  
    FROM Contract_Info ci  
    INNER JOIN Unit_Info ui ON ci.unit_id = ui.unit_id  
    INNER JOIN Building_Info b ON ui.building_id = b.building_id  
    WHERE ci.user_id = 'UID5'  
)  
AND ui.unit_id NOT IN (  
    SELECT unit_id  
    FROM Contract_Info  
    WHERE user_id = 'UID5'  
)  
ORDER BY ui.date_posted DESC;
```

Thank you!
